ABOUT ME

An enthusiastic Full-Stack Developer, passionate about creating clean and high-quality applications as well as learning new programming skills. I'm particularly skilled in Javascript, React, Node, Express, MongoDB and willing to expand my knowledge with React Native, Typescript and Unit Testing. I started with web content creation including websites and social networks. Becoming a developer combined my creative vision with my interest in technology.

WORK EXPERIENCE

Vertuoza Charleroi, Belgium

Full-Stack Developer

From March 2020 to June 2020

[Vertuoza](#) is a management software for construction professionals.
